## *Institution: Halls' Boat*

Established Hall's Boat works on the site of the old Harris building back to 1908. Located at the foot of George in the Adirondack Park, it was purchased by wooden boat builder Tom Lamando in 2006. With its modern and more fully developed services, Hall's makes it easy

for their clients to spend time on their boats.

Today, Hall's operates a full service boatworks offering restoration and new construction, a boat sales team specializing in wooden runabouts, and a boating club providing concierge marine service and Adirondack-style lodging on site.
